

# NEW WEIMING LAW GROUP

Immigration Law • NIW • EB-1A

---

## NWM's Extraordinary Success with Physicians, Surgeons, and Medical Clinicians

*The Value of Our Work: NIW & EB-1A Success for Medical Professionals*

---

### The National Importance of Foreign-Born Medical Professionals

---

**26–29% of All U.S. Physicians and Surgeons Are Foreign-Born**

Representing hundreds of thousands of practicing doctors nationwide

Foreign-born physicians are essential to the U.S. healthcare system, particularly in:

- Specialty care and advanced clinical fields
- Underserved and high-need communities
- Hospital systems, academic medicine, and public health leadership

### Our Proven Success in NIW & EB-1A Petitions

---

New Weiming Law Group has achieved extraordinary success securing approvals for:

- Physicians
- Surgeons
- Highly specialized medical clinicians

We are widely recognized for our strength in representing this uniquely high-impact group of professionals.

### A Sophisticated, Real-World Approach to Medical Excellence

---

We understand that medical specialists often do not have extensive publication records or high citation counts.

Our strategy focuses on demonstrating sustained national importance through **real-world clinical impact**, rather than academic metrics alone.

## Demonstrating "Sustained Major Significance" in Medicine

---

We effectively establish extraordinary ability and national interest by documenting how our clients' work:

- Improves or reshapes recognized medical protocols and clinical guidelines
- Introduces or advances procedures and treatment methodologies
- Enhances patient outcomes, safety, and standards of care
- Influences institutional practices, hospital systems, or specialty-wide approaches
- Creates measurable impact across healthcare delivery and public health

## Why This Approach Works

---

Clinical medicine is impact-driven, not publication-driven.

USCIS standards are met — and exceeded — by demonstrating tangible, sustained contributions to U.S. healthcare.

This methodology has proven enormously effective, resulting in consistent approvals for highly qualified medical professionals.

## Our Reputation

---

New Weiming Law Group is known for its success with highly specialized medical professionals whose work directly benefits the health, safety, and well-being of the United States.

**We translate clinical excellence into compelling immigration evidence — with precision, credibility, and results.**
